Version: **1.0**

This is the full version of my modification for GTA San Andreas which adds more objects in all major cities.

Big thanks to: **SteQu, Fox, rww**

Number of objects

Los Santos: **3067** San Fierro: **2137** Las Venturas: **976**

ATTENTION

Before installing, make sure you have:
- GTA SAN ANDREAS 1.0
- Silents Asi Loader
- Open Limit Adjuster

These things are required for the modification to work properly.
I also recommend installing:
- SkyGfx

Installation instructions

INSTALLATION #1

1. The file named "gta.dat" should be placed in the "data" folder
gta.dat -> GTA San Andreas/data

2. The folder named "SAME" should be placed in the "maps" folder
SAME -> GTA San Andreas/data/maps

INSTALLATION #2

1. Put everything in the ModLoader folder
